# SUMMER STUDENT PROGRAMME FOR NON-MEMBER STATES

CERN (European Organisation for Nuclear Research)

## Description:

CERN invites applications for its summer student programme for non-member states. This enables undergraduate and junior post-graduate students of physics, computing and engineering the opportunity to join in the day-to-day work of research teams participating in experiments at CERN in Geneva, Switzerland. In addition to the work in the experimental teams, summer students attend a series of lectures specially prepared for them.

Applicants must be university-level undergraduates in at least their third year or must be at the start of post-graduate studies. They should have a good knowledge of English and may not have worked at CERN previously for more than three months. Applicants will remain registered as a student during their stay at CERN.

The scholarships last for eight weeks and include a stipend to cover accommodation and meals. A limited number of travel scholarships are available.

## CEA EUROTALENTS FELLOWSHIPS

*French Atomic Energy Commission – Commissariat à l'énergie atomique et aux énergies alternatives*

### Description:

The French Atomic Energy Commission invites applications for its Eurotalents fellowships. These aim to give researchers international experience and widen their scientific skills. Proposals must address one of the following research fields: Energy, environment and climate change; key enabling technologies; life sciences and biotechnology; high energy physics, high energy density physics, and physics of the universe. Two types of fellowships are available:

- incoming fellowships to financially support international scientists to initiate and carry out an innovative research project in one of the CEA laboratories;
- outgoing fellowships to financially support scientists with a research project in a partner laboratory established outside France and that identifies a CEA laboratory as a return

host laboratory after the training period to be funded.

To be eligible for an incoming fellowship, applicants must not have lived in France for more than 12 months in the three years prior to the submission of their research proposal. To be eligible for an outgoing fellowship, applicants must not have lived in their potential outgoing country for more than 12 months in the two years prior to the submission of their research proposal. Only researchers with at least four years experience after their master's degree, or in possession of a PhD, may apply. Around 150 one to three-year fellowships are available. Monthly grants vary from €3,450 to €5,350, including mobility allowance. 20 per cent of the grant will go to towards pension funds and insurance.

### Description:

Ludwig-Maximilians University's Rachel Carson Centre for Environment and Society invites applications for the Carson fellowships. These aim to bring together scholars who are working in environmental history and related disciplines in order to conduct research and written work pertaining to the centre's central theme of transformations in the environment and society. The following awards are available:

- writing fellowships, for the completion of major articles or book projects in the environmental humanities, lasting between three to 12 months;
- interdisciplinary writing fellowships, lasting from three to 12 months, for collaborative projects between scholars from the humanities and scholars from the sciences or field practitioners, who come from different institutions;
- outreach fellowship, for work which promotes public engagement on the central theme, with a focus on documentary filmmakers and writers;
- short-term fellowships, lasting from one to eight weeks, supporting interdisciplinary partnerships and dialogues across the theory to practice divide;
- alumni fellowships, lasting from three to six months, funded by the RCC alumni association for the benefit of former Carson fellows.

Applicants should plan to begin their fellowship between 1 September 2017 and 1 December 2018. For all awards except the outreach fellowships, each candidate must have completed their PhD by the application deadline. The programme does not sponsor field

trips or archival research. Fellows are expected to be in residence in Munich. The centre pays for a replacement for the successful candidate at their home institution; alternatively it provides a stipend that is commensurate with experience and current employment. Applications may be in English or German.

## WRITING UP GRANTS

*Foundation for Urban and Regional Studies*

### Description:

The Foundation for Urban and Regional Studies invites applications for their writing-up grants. These support doctoral candidates in the field of urban and regional research. Dissertations should contribute to the understanding of the interconnection between social, economic and political processes and of the broader causes and effects of these processes. Research which examines policies critically and focuses on their unintended as well as intended consequences is more likely to be supported than research on managerially defined questions.

Doctoral students within the field of urban and regional studies who are close to submission may apply. By the time of application they must have completed all their field work, commenced their writing up and already know the date when they will submit their dissertation. Applicants usually will be in their third year or later of study. Grants are worth up to £6,000 for a period of six months. They may cover university fees, accommodation and equipment expenses while writing up.

# SUMMER INTERNSHIP PROGRAMME IN RESEARCH FOR GRADUATE STUDENTS

*Educational Testing Service*

## Description:

The Educational Testing Service invites applications under its summer internship programme in research for graduate students. This supports research under the guidance of a senior ETS staff member in the areas of validity or games, simulation and collaboration. The validity theme includes the four following areas:

- design and development, including learning opportunities embedded in complex assessments and assessment of student learning outcomes;
- fairness, including minimising access barriers for test-takers with disabilities;

## **C**HARLES BULLARD FELLOWSHIPS IN FOREST RESEARCH Harvard University

### Description:

Harvard University invites applications for the Charles Bullard fellowships in forest research. This supports advanced research and study by individuals who show promise of making an important contribution, either as scholars or administrators, to forestry and forest-related subjects including biology, Earth sciences, economics, politics, administration, philosophy, humanities, the arts or law.

Bullard fellowships are generally awarded to individuals in mid-career who have established themselves in public service, in academia or in the private sector. For those in academic careers preference is ordinarily given to holders of doctoral degrees. Recent PhD graduates are generally not appropriate candidates. The fellowships are for six to 12 months' duration and carry stipends of up to US\$40,000, or more if necessary, one return trip between the fellowship site location and the home base, and a US\$500 supplies budget. Five to seven fellowships are awarded per year.

## **R** RESEARCH ASSOCIATESHIP PROGRAMS: FAA/CIVIL AEROSPACE MEDICAL INSTITUTE *The National Academies of Sciences, Engineering, and Medicine*

#### Description:

The National Research Council invites applications for its research associateship programs at the FAA/Civil Aerospace Medical Institute. The objectives of the programs are to provide postdoctoral scientists and engineers of unusual promise and ability with opportunities for research on problems, largely of their own choice, that are compatible with the interests of the sponsoring laboratories.

Awardees must hold a PhD, ScD, or other earned research doctoral degree recognized in US academic circles as equivalent to a PhD. Postdoctoral associates must have held the doctorate for under five years. Senior associates must have held the doctorate for five years or more or have equivalent research experience. Tenure ranges from three months to one year.

Opportunities are open to all US citizens and to citizens of other countries who have full command of the English language. The current annual stipend for a postdoctoral research associate is \$42,000 plus a travel allotment of \$2,000.

**Closing date:** 01 Feb 17

## TRAINING FELLOWSHIPS

*European Society for Paediatric Infectious Diseases*

### Description:

The European Society for Paediatric Infectious Diseases invites applications for its training fellowships. These fund visits by ESPID members to other centres to obtain experience or training in techniques or areas not otherwise available to them. Clear and specific training objectives, which could involve clinical, laboratory, public health or other academic areas, are essential.

The applicant must be a trainee paediatrician or in medical, allied health professional or scientific training in a clinical or academic centre involved in paediatrics or child health under the age of 40. Applications from those in career posts may also be funded if there is a clear case that the relevant experience to be gained is of strategic importance and not available locally. The host must be in a different country from the applicant's home country, and provide written confirmation in advance that they can provide the type of training being specifically requested. Both applicants and host staff must be ESPID members.

The awards will cover round-trip travel costs and a maximum of €412 per week towards subsistence while away. The host centre is offered fixed funding towards its costs; €82 for administration expenses, plus a maximum of €185 per week to cover infrastructure costs. Visits are usually for around one to two months, and the maximum is ten weeks.

### Description:

The Prostate Cancer Foundation invites applications for its young investigator awards. These support the development of a cohort of human capital in prostate cancer research. Priority is given to translational research proposals with the potential to deliver near-term benefit to patients, although highly innovative basic science programmes will also be considered. Mentorship is required for every young investigator.

Applicants should be within six years following completion of a professional degree or clinical training, and may hold the title of senior postdoctoral fellow, instructor, research associate, assistant professor or equivalent. Successful applicants should be working in a research environment capable of supporting transformational prostate cancer research. Access to and interaction with a clinical environment and translational prostate cancer physician-scientists is highly desirable. Applications are encouraged from early-career basic scientists, medical oncologists, urologists, radiologists, radiation oncologists, public health experts and professionals from other medical research disciplines, while a special consideration will be given to research molecular pathologists and bioinformaticians.

Each award provides US\$75,000 per year over a three-year period. Equal in-kind support will be requested in the form of dedicated space, equipment, institutional overhead, core institutional resources or similar.

## **D** ADLINE BROUGHT FORWARD: EDCTP-WHO/TDR CLINICAL RESEARCH AND DEVELOPMENT FELLOWSHIPS *World Health Organization*

### **Description:**

\*\*\* The World Health Organization together with the European and Developing Countries Clinical Trials Partnership have brought forward the closing date for their clinical research and development fellowships. The deadline has been brought forward from 2 March to 2 February 2017. All other call details remain unchanged. \*\*\*

These fellowships enable researchers and key members of clinical trial research teams from low- and middle-income countries to acquire specialist skills in clinical research and development through placements in pharmaceutical companies, product development partnerships and academic affiliated research institutions. Fellows employed by a research institution in any LMICs are placed in pharmaceutical companies and product development partnerships either in or outside Europe. Additionally fellows employed by a sub-Saharan African legal entity are placed in European-based pharmaceutical companies to train and develop specific clinical research skills of relevance to poverty-related diseases.

Junior to mid-career researchers or clinical staff who have been employed by a legal entity in a LMIC where they are currently working on activities in the scope of the EDCTP2 programme and the WHO/TDR CDF programme may apply. The home organisation should be the main applicant. Applicants must

be committed to returning to their home organisation for a minimum of two years after completion of the fellowship. Placements can last from 12 to 18 months, following which there may be a re-integration period of six months, subject to the approval of a final re-integration plan. The total budget for this call is €3.5 million and will cover 100 per cent of eligible costs.

#### Description:

The Abdus Salam International Centre for Theoretical Physics, in partnership with the International Atomic Energy Agency, invites applications for its sandwich training educational programme. This programme offers fellowship opportunities to PhD students from developing countries in the fields of physics and mathematics. The programme supports research in the following fields:

- atomic and nuclear physics;
- nuclear, isotope and laser techniques applied to human health, agriculture, biotechnology and biophotonics, water resources and environmental studies;
- synchrotron radiation and applications;
- medical radiation physics;
- condensed matter and statistical physics;
- high energy physics;
- mathematics;
- earth system physics;
- applied physics, including micro- and nanoelectronics, fluid dynamics and dense plasma source physics.

## POST-CAREER BREAK FELLOWSHIP

CERN (European Organisation for Nuclear Research)

**Description:**

CERN invites applications for its post-career break fellowship. This enables researchers to undertake research work in experimental or theoretical physics, or advanced development work and related research in a broad range of applied science, computing and engineering fields.

Applications are invited from candidates with either a senior or junior profile. Senior applicants must have a master's-level diploma or PhD with between four and 10 years relevant experience after the MSc. Those applying in experimental or theoretical physics must have a PhD, or be about to finish their thesis. Junior applicants must have a BSc or technical engineer diploma with no more than four years of relevant experience. Junior fellows must be nationals of one of CERN's member states. Applicants should have been on a career break for personal reasons such as family or caring responsibilities or health issues for the last two years. Fellowships last between six months and three years. One full-time fellowship or two-part

time fellowships are available, covering stipend, insurance, travel expenses and family allowances.

## **P**HOSAGRO/UNESCO/IUPAC RESEARCH GRANTS IN GREEN CHEMISTRY UNESCO

### Description:

UNESCO, PhosAgro and the International Union for Pure and Applied Chemistry, invite applications for their research grants in green chemistry. These enable young scientists to carry out innovative research projects in green chemistry and on phosphogypsum. There are two streams of funding available: grants for green chemistry projects and grants for projects focusing on innovations in the processing and utilisation of phosphogypsum. Proposals must adhere to the 12 principles of green chemistry.

Young scientists aged 39 or less may apply. Eligible candidates must hold a PhD or equivalent in chemistry or an interdisciplinary allied area. Applicants must have at least three publications in recognised scientific journals and have submitted no more than one project proposal under this call. No more than one candidate per home institute will be awarded a grant. Grants are worth up to USD 30,000 each. Funding may be used for travel and living expenses related to the research project, the purchase or rental of research equipment, the preparation and publication of information materials and reports on the project, and communication and organisational expenses.

## POSTDOCTORAL FELLOWSHIPS ON INNOVATIVE METHODS AND METRICS FOR AGRICULTURE AND NUTRITION ACTIONS FELLOWSHIPS (IMMANA)

Department for International Development

### Description:

The Department for International Development invites applications for its postdoctoral fellowships on innovative methods and metrics for agriculture and nutrition actions fellowships (IMMANA). These aim to create a cadre of emerging leaders in agriculture, nutrition and health research by supporting early career researchers in developing and adapting innovative methodological approaches with mentors in ongoing research programmes in low- and middle-income countries.

Applicants must have completed a doctoral degree in any field related to agriculture, nutrition or health research and practice, and have no more than three years of post-PhD experience. Applicants from any nationalities may apply but preference is given to individuals with research or faculty appointments in sub-Saharan Africa and south Asia. Two mentors must be committed to act as supervisors; one mentor must be from a host institution where the applicant proposes to advance their work and at least one mentor must be located in Africa or Asia.

Fellows receive a stipend of £34,000 and a research allowance of £7,500 to cover travel and other fieldwork expenses. An honorarium of £1,750 is paid to each of the mentors. Fellowships last for one year and are not renewable.

**Closing date: 28 Feb 17**

## **L** EMELSON CENTER ARCHIVAL INTERNSHIPS *Smithsonian Institution*

### **Description:**

The Museum of American History, under the Smithsonian Institution, invites applications for the Lemelson Center archival internships. These enable graduate students to understand, identify and manage the historical records of American invention and innovation by giving access to the museum's historical collections in the history of technology and 20th century material culture. The internship will provide hands-on experience

with archival collections that document invention and innovation as well as engaging the participants in discussion of archival issues and practices and thereby providing a wide range of professional experiences within the museum.

Applicants must be enrolled in a graduate degree programme and have completed

graduate course work in archival, library, information management, American history, American studies, museum studies, public history or another area that relates to the history of invention and innovation in American society. Recent graduates may also apply. Each internship lasts for 10 weeks and includes a USD 6,000 stipend. One internship is available each summer.

## **L** IBRARY RESIDENT RESEARCH FELLOWSHIPS *American Philosophical Society*

### **Description:**

The American Philosophical Society invites applications for its library resident research fellowships. These support short residential fellowships for conducting research in the collections in the area of history of American science and technology and its European roots, as well as early American history and culture.

Applicants may be US citizens or foreign nationals who are holders of a PhD or equivalent, have passed their preliminary PhD examinations or are degreed independent scholars. Candidates living more than 75 miles from Philadelphia will be given priority. Researchers working in fields of study that contribute to a deeper understanding of America's founding principles and history and the wider traditions that influenced its development are eligible for a special two month scholarship sponsored by the Jack Miller Centre. Relevant applicants may state their interest in their application materials.

Fellowships have a duration of between one and three months, depending on the length of the award, with a stipend of USD 3,000 per month. The duration of the award is requested by the candidate. Fellowships cannot start earlier than 1 June 2017 and must be completed by 31 May 2018.

## WADSWORTH INTERNATIONAL FELLOWSHIPS

Wenner-Gren Foundation for Anthropological Research

### Description:

The Wenner-Gren Foundation for Anthropological Research invites applications for the Wadsworth international fellowships. These support students from countries with limited resources to undertake PhD or equivalent studies at universities where they can receive international-standard training in anthropology.

Applicants must be from lower- and middle-income countries in which anthropology lacks institutional and financial support. Priority is given to applicants who have not begun graduate training outside of their home countries, and who are likely to return to an academic position in their home country upon completion of their degree. Applicants are normally under 35 years of age at the time they begin their fellowship, and those who have advanced beyond their first year of doctoral studies are not eligible.

Fellowships are worth US\$17,500 per year for a maximum duration of three years, to be used towards travel, living expenses, tuition, student fees, insurance, books or research expenses. Fellows may make a separate application for an additional year of funding to support dissertation write-up.

## **D** OCTORAL SCHOLARSHIPS FOR CANDIDATES FROM DEVELOPING COUNTRIES Ghent University

### **Description:**

Ghent University invites applications for its doctoral scholarships for candidates from developing countries. These enable PhD students from developing countries to carry out half of their PhD research at Ghent University

and half at a university in a developing country. No restrictions are imposed on the field of research, but preference is given to topics that are relevant for development. The scholarship is for a total of 24 months, to be divided into

several periods spent on an alternating basis between Ghent University and the institution in a developing country, over the span of four years. Candidates must come from, and have nationality of, a developing country.

Each scholarship is worth €1,903 for each month the student is based in Ghent. A Ghent University promoter also receives a bench fee of €15,440 to cover part of the operational costs, as well as the travelling costs of the student and both the Ghent University and the local university promoter.

## INTERNATIONAL CLIMATE PROTECTION FELLOWSHIPS

*Alexander von Humboldt Stiftung – Alexander von Humboldt Foundation*

### Description:

The Alexander von Humboldt Foundation invites applications for its international climate protection fellowships. These enable prospective leaders in academia and industry to conduct a research project of their own choice in the field of climate protection or climate-related resource conservation in Germany for one year. The aim is to facilitate exchange of knowledge, methods and techniques between the fellows and their hosts in Germany and to promote the development of long term contacts and collaborations with their German colleagues.

Applicants must have completed their first degree no more than 12 years prior to the start of the fellowship and hold a doctorate in climate protection or have at least 48 months of leadership experience in this field. Postdoctoral candidates must have scientific publications in peer-reviewed journals according to international standards. Applications are encouraged from candidates with a background in the natural and engineering sciences and those who have been engaged in legal, economic and societal issues related to climate change. Applicants should have a very good knowledge of English or German and have an agreement with a German host at the time of application.

The fellowship includes a monthly stipend which reflects the fellow's qualifications and is worth between €2,150 and €2,650 plus additional allowances for travel, research visits to other countries in Europe, family allowances and an optional two month intensive German language course. The candidate receives a monthly research allowance of €500 to €800 depending on the study area.

## RESPIRE 3 MARIE CURIE POSTDOCTORAL RESEARCH FELLOWSHIPS – EUROPEAN FELLOWSHIPS

*European Respiratory Society*

#### Description:

The European Respiratory Society invites applications for its RESPIRE 3 Marie Curie postdoctoral research fellowships – European fellowships. These enable early-career scientists to carry out basic, translational or clinical research projects in the field of respiratory science. The programme promotes transnational mobility and transfer of knowledge, enables Europe to become a hub for the exchange of scientists, fosters the implementation of novel and innovative techniques and therapies and gathers expertise from various fields.

Scientists, investigators, clinicians as well as allied healthcare professionals with significant research background may apply. Researchers of any nationality may apply to stay at a host centre within a European member state or associated country other than their own. Candidates who received a RESPIRE 1 or

RESPIRE 2 fellowship may not apply. Before applying, a host centre and host supervisor should have been identified. Grants consist of a living allowance of up to €56,400 per year, a mobility allowance of up to €14,600 per year, if applicable a family allowance of up to €6,000 per year and up to €3,900 for the host institute per year for exactly 24 months. The two-year programme may be extended by an additional year in the industry.

## INTERNATIONAL AWARDS

*Lady Tata Memorial Trust*

#### Description:

The Lady Tata Memorial Trust invites applications for its international awards for

research in leukaemia. These support individuals conducting leukaemia research,

restricted to studies of the leukaemogenic agents, the epidemiology, pathogenesis, immunology and genetic basis of leukaemia, and related diseases. Awards are open to qualified investigators of any nationality. Priority will be given to those intending to move to other centres with a view to establishing scientific collaboration between laboratories.

Awards are tenable for one year; exceptionally, an award for a second year may be made. Each award is usually worth between £25,000 and £35,000 per year. In addition, one or more MPhil or PhD studentships may be granted, normally for two years with renewal possible for a third year on the basis of the eighteen-month progress report.

## **BRAIN INITIATIVE FELLOWS: RUTH L KIRSCHSTEIN NATIONAL RESEARCH SERVICE AWARD INDIVIDUAL POSTDOCTORAL FELLOWSHIP (F32)**

NIH: National Institute of Mental Health

### **Description:**

A total of 10 offices and institutes of the National Institutes of Health invite applications for their BRAIN initiative fellows: Ruth L Kirschstein national research service award individual postdoctoral fellowship (F32). This aims to enhance the research training of promising postdoctorates, early in their postdoctoral training period, who have the potential to become productive investigators in research areas that will advance the goals of the BRAIN Initiative. Applications are encouraged in any research area that is aligned with the BRAIN Initiative, including neuroethics. Applicants are expected to propose research training in an area that complements their predoctoral research. Formal training in quantitative perspectives and analytical tools is expected to be an integral part of the proposed research training plan.

Eligible applicants include US and foreign for-profit or non-profit organisations and public or private institutions. This programme encourages applications from individuals who have not yet completed their terminal doctoral degree and who expect to do so within 12 months of the application due date. On the application due date, candidates may not have completed more than six months of postdoctoral training.

## **B**ASIL O'CONNOR STARTER SCHOLAR RESEARCH AWARD *March of Dimes Foundation*

### **Description:**

The March of Dimes Birth Defects Foundation invites nominations for the Basil O'Connor starter scholar research award. This supports young scientists just embarking on their independent research careers by providing them with research funding to prevent birth defects, premature birth and infant mortality. Relevance to the subject area is interpreted broadly to include fundamental cell biology, genetics and genomics, fundamental cellular and clinical pathogenesis of disorders of importance to mothers and infants, biomedical engineering and imaging, and social and behavioural aspects. Deviations from reproductive health of women and men as an underlying basis of birth defects are also appropriate subjects for research support.

Nominations must be made by deans, chairs of departments, or directors of institutes or centres. Nominated candidates should hold an unrestricted faculty position and lab space. PhD, MD or MD/PhD applicants should not be more than eight years past their degree or completion of the last year of clinical training required for medical specialty board certification. The grant does not cover the recipient's salary, but it may provide salary support for technical help. Funding is worth up to US\$150,000 over a period of two years.

**Closing date:** 16 Mar 17 (Forecast)

## TAKING FLIGHT AWARD

*Citizens United for Research in Epilepsy (CURE)*

### Description:

Citizens United for Research in Epilepsy invites applications for its taking flight award. This aims to promote the careers of young investigators to allow them to develop a research focus independent of their mentor. Researchers may propose basic or clinical studies, but the award is not intended to support clinical trials. Research that involves collaboration and a multidisciplinary approach is desirable. CURE encourages studies that will provide new directions for epilepsy therapy, prevention and, ultimately, a cure and that will allow applicants to collect the data necessary to structure a successful National Institutes of Health grant application.

Senior postdoctoral fellows who have a minimum of three years postdoctoral experience, clinical fellows who are neurology residents in their neurology training who are considering doing epilepsy fellowships, or newly appointed faculty within one year of having completed postdoctoral training are eligible to apply. Individuals from any country are eligible to apply. The award is worth up to US\$100,000 for one year.

## GRADUATE STUDENT FELLOWSHIPS FOR ALTERNATIVES TO THE USE OF ANIMALS IN SCIENCE

*International Foundation for Ethical Research*

### Description:

The International Foundation for Ethical Research invites proposals for its graduate student fellowships for alternatives to the use of animals in science. These support candidates

whose proposals show the greatest potential to replace the use of animals in science. Proposals should advance the development of alternatives to the use of animals in research, testing or

education, and provide training that integrates innovation and discovery with ethics and respect for animals. Proposals may address the following areas of interest:

- tissue, cell and organ cultures;
- clinical studies;
- epidemiological studies;
- enhanced use of existing tissue repositories and patient databases;
- educational tools and resources;
- computer modelling and simulations;
- non-invasive field studies.

Applications are open to students enrolled in master's or PhD programmes in the sciences, and human and veterinary medicine.

Fellowships will also be considered for graduate students in other fields, such as education, psychology, humanities, journalism and law, for projects that show promise to increase public awareness or to promote changes in the legal system or public policy regarding the use of animals in research, testing and education. The fellowships include a stipend worth up to US\$12,500 per year and up to US\$2,500 for supplies per year. The fellowships are renewable annually for up to three years.

**Closing date: 30 Mar 17 (Forecast)**

**Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Pre-proposals accepted between 1 January and 30 March annually; invited full proposals accepted between 1 June and 15 August annually. This call is repeated once a year.**

## **E**MSLIE HORNIMAN ANTHROPOLOGICAL SCHOLARSHIP FUND

*Royal Anthropological Institute*

### **Description:**

The Royal Anthropological Institute of Great Britain and Ireland invites applications for the Emslie Horniman anthropological scholarship fund. This encourages postgraduates to pursue fieldwork, to develop their careers and make significant contributions to the study of the growth of civilisations, habits and customs, religious and physical characteristics of the non-European peoples and of prehistoric and non-industrial man in Europe. The fund supports anthropological research in its widest sense, including ethnography and all branches of human and social science relating to the physical and natural development of people in society.

Grants are normally made for research that will contribute to the award of an MPhil or PhD degree; those already in possession of a doctorate are not eligible. Preference will be given to those proposing to do fieldwork outside the UK. Applicants must be nationals of the UK or the Irish Republic, or Commonwealth citizens. Awards are in the range of £500 to £7,000.

## PHD INTERNSHIPS

*World Institute for Development Economics Research of the United Nations University*

### Description:

The World Institute for Development Economics Research of the United Nations University invites applications for its PhD internships. These offer registered doctoral students an opportunity to utilise the resources and facilities at UNU-WIDER for their PhD dissertation or thesis research, and to work with researchers in areas related to developing economies. Internships typically last from two to three months and take place in UNU-WIDER's facilities in Helsinki, Finland. PhD interns prepare one or more research papers and present a seminar on their research findings. They may also have the opportunity to publish their research in UNU-WIDER's working paper series.

Applicants must be enrolled in a PhD programme and have shown ability to conduct research on developing economies. Candidates working in other social sciences may apply, but should keep in mind that UNU-WIDER is an economics-focused institute. Fluent oral and written English skills are required. Preference is given to applicants who are living or working in developing countries, and who are at later stages of their PhD. Internships include a travel grant, medical insurance and a monthly stipend of €1,600 to cover living expenses in Helsinki.

**Closing date: 31 Mar 17**

**Deadline information:** Applications are invited between 1 March and 11.59pm EET, 31 March, and 1 September and 11.59pm EET, 30 September annually. Deadlines on: 31 March 2017, 30 September 2017, and repeated annually.
